Re: County Line Road Improvement Project, SR 87 to Russell Twp/Chester Twp line

Dear Residents,

The Geauga County Engineer and the Russell Township Trustees wish to inform you of the improvement of County Line Road between SR 87 and the Chester Township line in Russell Township. The contract for this work was awarded to TRAX Construction Inc. The project will begin on/or about Monday, June 10, 2019, and will continue for approximately six months.

The project will include the cement stabilization of the existing roadway and the road subgrade. It also will include culvert replacement and road widening.

County Line Road will be closed in sections during construction. Access will be maintained for residents who live within the construction limits, although access may be from one direction only for periods of time. There will be times when vehicles must not travel portions of the road due to equipment, dry cement on the roadway, or irregular grade on the roadway. Special arrangements will be made to allow buses or emergency vehicles through the work limits.

Every effort is being made to provide for clear communications regarding traffic & access during this project. Here are several resources to take advantage of:

- Arrow Signs: Please look for arrow signs and traffic control directions particularly at side streets intersections.
- Project Inspectors: Please look for the Project Inspectors employed by Geauga County if you have questions on the job site. The Project inspectors will be onsite at all times during the work day.
