Re: Proposed 2016 Township Projects
Gauga County

Dear Board Members:

Enclosed please find the Year 2016 Proposed Township Project form to be completed by township officials. The Engineering Department will prepare suggested scopes of work and also prepare preliminary estimates for your Board to review to help develop your road improvement program for next year. Please do not use this form as a request for Ohio Public Works grant funds.

Please return this completed form by October 15 so that we can evaluate the projects prior to winter. Provide as much detail as is available to help us expedite the process. As your program takes shape, our design department will take a more detailed look at the roads and recommend final design parameters. Likewise, if you will not be planning any road improvement projects, please return the form indicating so.

Please contact this office if you would like me to attend a township board meeting to discuss your proposed road program or to answer questions about the services provided by this office.

Sincerely,
Joe Cattell
Gauga County Engineer

Shane E. Hajjar
Deputy Engineer
