Justin

As a partner in the West Geauga Commons, I wanted to let you know that at the July 5th meeting the Chester Township Board approved up to \$6,000 of funding to the Commons. However before a check is cut, the Commons Board members where asked if they approached the School Board for funding. They have not but said that they would. So the final amount may be lower the funding approval.

Also mentioned was funding from Russell and if Russell's share of funding should be more since the Park is in Russell Township. Similar to how Chester has a greater burden of the SRO expense since the school is in Chester Township.

Please let me know if you have any questions.

Thank you

Craig

Board of Trustees

Russell Township

To Trustees;

The West Geauga Community Joint Recreation Council has made a decision to refurbish the existing children's playground area at the West Chester Commons. The existing playground apparatus is in poor condition and requires improvements to make it both safe and an enjoyable area for the future use by our community's children.

We have agreed that the practical solution is to refurbish the main apparatus and replace the railroad ties that encircle the playground.

The total cost of this undertaking will be \$22,268.00. We have received commitments from our local Kiwanis Club, Lion's Club, and Soccer Club, to contribute to this effort. These contributions will exceed \$6,000 plus some labor supplied by the Kiwanis members.

In order for the West Chester Commons to reasonably afford to complete this project, we would request \$6,000 from the Russell Trustees.

Our goal is to complete this playground improvements in the month of July while the weather is good.

Meyer's Design is completing the playground project and the costs associated with this undertaking are attached for your review.

Thank you for your consideration!

Walt Waetjen and I will be available for your meeting on June 20th in case you have any questions.

Sincerely,

Rick Izant
